## WEEK ONE

## Next Week

**Reading, Math, Social  
Studies and Science**

After spending the week getting to know our classmates, practicing routines and procedures, learning school and classroom rules, playing games, and completing activities that touched on math, science, and social studies, we are ready to jump into more academic instruction and learning! Stayed tuned to hear more about what we will be working on in the coming weeks.

## Kindergarteners dive into learning in Spanish!

We have had a fantastic first week here in Spanish Immersion Kindergarten! Not only have we learned many classroom rules and routines, like how to order lunch, what to do during work time, how to be a good listener, and what to do when the teacher says, “Atención,” but we have also wowed teachers, staff, and parents with our excellent hallway behavior and fantastic listening skills. If your child hasn’t shared many details about what we’ve done this week, be sure to ask about The Kissing Hand, free choice time, the book hospital, recess, or what David, (from the David Shannon books), taught us about following rules. You could also ask about how we learned to take care of books, how we practiced Spanish numbers by playing a dice game, or how our white play dough changed colors. The week has flown by with all of these engaging activities. Make sure to congratulate your child for finishing their first week of kindergarten!
